DETAILED ACTION

Response to Amendment

In regards to the merits of Baun (US 4,563,824) in the previous Final Rejection filed 3/14/2006, the applicants argument that Baun does not teach the features of centering disc spaced by spacer where biasing units push circumferences of the spacer have been found to be persuasive.

Accordingly, the previous Final Rejection has been withdrawn.

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: the prior art does not teach all of the limitations of the claimed invention including:

- (In claim 1):-centering disc spaced by spacer and biasing units which are slidably provided outside the hub unit and push circumferences of the spacers.

(In claim 23): - a centering and biasing unit which is provided outside the hub unit, centers the discs and biases the spacers, wherein the centering and biasing unit comprises; a disc centering unit having pushing members which simultaneously push circumferences of the discs to center the discs; and a spacer biasing unit having biasing rods which simultaneously bias the spacers.

Accordingly, claims 1-23 are allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Tai Van Nguyen whose telephone number is 571-272-4567. The examiner can normally be reached on M-F (7:30 A.M - 4:30 P.M).
